Beautiful Skin. Beautifully Simple.

WHAT IS/ *TempSure Envi?*

TempSure Envi treatments minimize facial fine lines and wrinkles, tighten skin* without injections or downtime.

- **Safe for all skin types and levels of sun exposure**
- **No surgery, no needles, no downtime**

Radio frequency is a non-invasive treatment that uses controlled heat to stimulate the production of new collagen and elastin in the deeper layers of the skin, resulting in a firmer, tighter, and more youthful appearance. Results can last for up to 6 months after completion of your series. For best results maintaining a healthy and hydrated lifestyle is recommended. "Touch-up" treatments are recommended semi-annually or annually to maintain results.

*Through soft tissue coagulation

THE / *Problem*

As we age, our bodies can't generate collagen as fast as it is depleted, causing our skin to lose laxity and firmness. As a result, wrinkles and fine lines form leaving you with smile lines, crow's feet and other bothersome creases.

Beautiful Skin. Beautifully Simple.

THE / *Solution*

Finally there's a solution that works!
The TempSure Envi treatment minimizes fine lines and wrinkles, tightens skin*. It's safe for all skin types so it fits into any beauty maintenance routine, any time of the year!

We use the Cynosure TempSure device. We use the TempSure Envi and TempSure Firm handpieces and are able to help treat fine lines and wrinkles on the face as well skin tightening and cellulite on the body.

*Through soft tissue coagulation

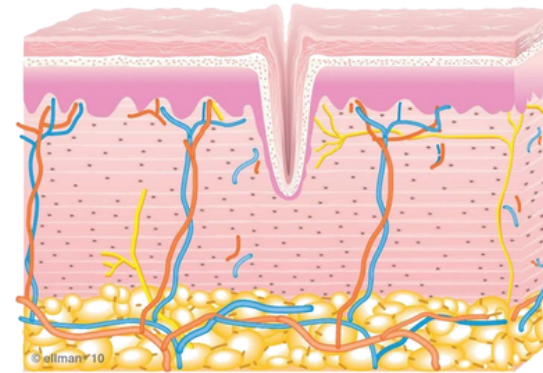

Beautiful Skin. Beautifully Simple.

HOW/ *does it work?*

The TempSure Envi treatment gently heats your skin to trigger your body's natural response to produce new collagen. The new collagen fibers are tight, dense and neatly organized giving you tighter*, younger-looking skin!

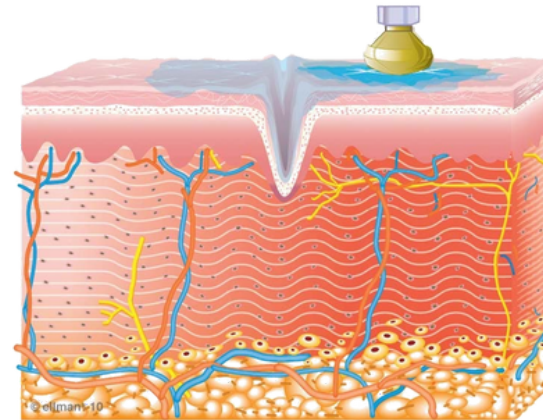

The service provider will first cleanse the area to be treated and then apply an ultrasound gel. They will then use the handpiece suited for the area being treated. It is normal to feel heat and pressure. Some mild vibrations and mild discomfort can be expected. If it feels hot at any time, please inform the service provider immediately.

*Through soft tissue coagulation

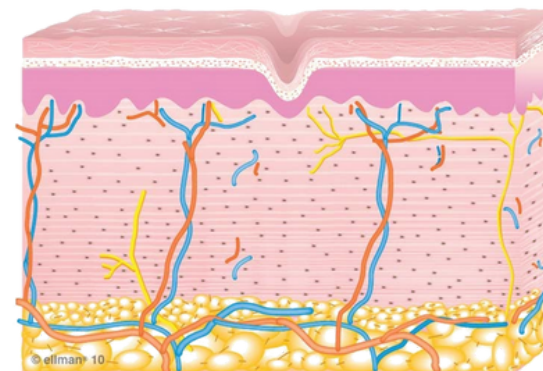

UNTREATED SKIN

The TempSure Envi treatment targets facial fine lines and wrinkles

COLLAGEN SYNTHESIS BEGINS

The TempSure Envi treatment delivers radiofrequency technology to gently heat your skin. Increasing the skin's temperature for a defined, therapeutic time will trigger a natural response for your skin to create new collagen.

COLLAGEN REMODELING OCCURS

The new collagen fibers are tight, dense, and neatly organized giving you tighter*, younger looking skin.

Beautiful Skin. Beautifully Simple.

DURING/ *the Treatment*

During a face-only treatment, you will experience a gentle warming sensation around the target area(s). Most treatments can be performed in under 45 minutes, which makes this a great lunch time option.

Beautiful Skin. Beautifully Simple.

AFTER THE/ *Treatment*

After the treatment, there is usually only a slight redness of the treated area. This redness generally will subside soon after. You will be able to return to your daily activities immediately following treatment!

You will require anywhere from 6-8 treatments spaced 2-4 weeks apart. Your service provider will be able to create a treatment plan for you during your consultation.

DOES IT/ *Hurt?*

The TempSure Envi treatment has been carefully designed with comfort in mind to provide you with a comfortable and effective treatment every time! 99% of patients described the treatment as comfortable.

Radio frequency is extremely safe treatment. You may have some redness and swelling after however that will subside within 24 hours. There is no down time and you are able to resume regular activities immediately after.

It is important to stay hydrated 24 hours prior to your appointment and 24hrs after your appointment for best results. If you were provided with a face mask we ask that you use it 30 mins to an hour prior to your appointment.
